

INTRODUCING

SIRA

On 1 September 2015, WorkCover NSW was replaced by three new entities – including the State Insurance Regulatory Authority (SIRA), the new insurance regulator. Between them, these cover all the same services and functions you are used to getting from WorkCover.

These changes are part of reforms to improve the workers compensation system for both employers and injured workers. For details go to insurancereforms.nsw.gov.au.

icare is the brand of Insurance & Care NSW, and acts for the Workers Compensation Nominal Insurer. It provides services to Dust Diseases Authority, Lifetime Care and Support Authority, Sporting Injuries Authority and NSW Self Insurance Corporation.

To access any of the services call **13 10 50** or go online
