Stretching RX Implications to Muscle, Joint and Neural with Kevin McLean

Kevin McLean: Kevin has been a Remedial Therapist since 1995 and has lectured at the Endeavour College of Natural Health for 10 years. Kevin has worked with elite teams in such sports as Australian Cricket Team, Australian Soccer Teams, and Australian Rugby League and was involved in the 2000 Olympic games and the 2001 East Asian Games. He is a registered Remedial Therapist with the Queensland Academy of Sport since 1997. He has special interest in the continued education in the industry and has developed specific techniques to compliment his hands on skills.

Nutrigenomics: Concepts & Applications for Clinical Practice with Daniel Roytas

Daniel Roytas: Daniel is a Naturopath and Nutritionist, holding a Bachelor of Health Science in Naturopathy (Endeavour) and a Masters of Human Nutrition (Deakin). Daniel has a wide range of experience working within the tertiary education, corporate naturopathic and clinical sectors of the complementary medicine field. He has written for complementary medicine textbooks including Clinical Naturopathy: An Evidence-based Guide (2nd Edition) and has also developed technical material presented at national and international conferences.

A Fresh Look at Cardiovascular Disease and Natural Ways to Address them with Kerry Bone

Kerry Bone: BSc(Hons), Dip Phyto, Associate Professor School of Health UNE, ANTA Fellow, FNIMH, FNHAA, MCPP. Director Research & Development - MediHerb, Adjunct Professor - School of Applied Clinical Nutrition, New York Chiropractic College USA

Pediatrics in Traditional Chinese Medicine with Tony Reid

Tony presents an introduction to the unique approach to children's disorders found in Traditional Chinese Medicine. Children have many special physiological and psychological feature, which determine the way in which illness manifests; they are not to be regarded as 'miniature adults'. This presentation highlights the specific physiological feature of children along with their unique diagnostic indicators. Although Traditional Chinese pediatrics developed with the paradigm of TCM, you will find that the underlying principles are readily applicable to other modalities.

Tony Reid: Master of Acupuncture, Master of Traditional Chinese Medicine (Dist) (UWS), Dip TCM (SITCM)
