Achieving Compliance at Health Fund Audits with Jim Olds

Health Funds are increasingly carrying out onsite audits of practitioners. Failure of an audit can result in cancellation of your provider registration and severely impact your practice. Jim's presentation includes essential and important information to assist members to achieve a successful audit by health funds.

Vice President & Director ANTA, Master of Sports Coaching, BHSc MST ECNH 2009, BHSc Comp Med CSU 2000, Dip Clinical Nutrition NSWNSM 1993, MSC GU 2011, GC HE 2008. Jim has been a Nutrition and Remedial Therapist since 1993 and is currently the National Training Manager Manual Therapies Endeavour College of Natural Health

The Keys to Differentiating between Celiac Disease & Non-Celiac Gluten Sensitivity with Warren Maginn

Warren Maginn: Warren is a Clinical Nutritionist who specialises in the treatment of chronic immune disorders and metabolic imbalances through the principles of Nutritional Medicine and a highly individualised approach to patient care. Warren lectures in Nutritional Medicine at Endeavour College of Natural Health in Brisbane and acts as the National Technical Educator for Research Nutrition, supporting nutritional, naturopathic and medical practitioners in their use of functional pathology testing and emphasising its role within the basis to modern healthcare and integrative health management.

Disorder Due to Damp-Heat - TCM approach to difficult clinical scenarios with Tony Reid

Because of our climate and lifestyle, disorders due to Damp-Heat are very common in Australia. The combined pathogenic factors of Dampness together with Heat may give rise to a broad range of seemingly contradictory signs and symptoms. Commonly, patients who complain of prolonged fatigue, weight gain and digestive disturbances may be suffering from Damp-Heat. Western medicine may diagnose depression, chronic fatigue syndrome, or other mood disorders, without being able to provide safe and effective treatment options. However, Chinese herbal formulas, taken at a suitable dosage, generally lead to rapid improvement over the short term, while eradicating the underlying causes over the longer term.

Tony Reid: Master of Acupuncture, Master of Traditional Chinese Medicine (Dist) (UWS), Dip TCM (SITCM)

The Impact of Non Ionising Radiation on Health with Rob Santich

There is increasing awareness that mobile phones emit radiation however there are many sources including electrical appliances, wireless networks, computers, cordless phones, baby monitors and more. This presentation explores the impact that this non ionising radiation has on human health from headaches and fatigue through to extreme electro sensitivity and what can be done about it.

Rob Santich: Rob is a practising Naturopath specialising in herbal medicines and pediatrics. He is the co-author of the authoritative text "Healthy Children: Optimising Children's Health with Herbs. Aside from clinical practice, Rob is also a highly regarded herbal educator, lecturing in the USA and at the University of New England, Armidale, NSW.
